Lantronix SA8155P Automotive Development Platform - High-Performance Infotainment Solution

ℹ️ **Document Conversion Notice:** This page was converted from the original file for easier reading. Diagrams/images may appear only in the original PDF below.

LANTRONIX®

SA8155P Automotive Development Platform

Based on the Qualcomm® SA8155P Automotive SoC

The third-generation Automotive Development Platform (ADP) based on the Qualcomm® SA8155P processor from Qualcomm® Technologies, Inc. (QTI) provides OEMs and ecosystem partners with access to QTI's high-performance automotive infotainment, advanced driver assist platform for developing, testing, optimizing and showcasing next-generation in-vehicle infotainment solutions.

The SA8155P processor includes an eight-core Kryo™ CPU, a Qualcomm® Adreno™ 640 GPU and high-performance Qualcomm Hexagon™ 696 DSP. The ADP features rich connectivity through Wi-Fi 802.11ac, Bluetooth LE 5.0, and supports up to 8 GMSL cameras and 5 mini display ports. The ADP provides an optimized application development environment for rapid deployment of high performance and power efficient connected automotive infotainment offerings.

Key Features

- SA8155P Automotive SoC
- 8GB LPDDRX + 128GB UFS
- 802.11ac Wi-Fi and Bluetooth 5.0
- 8 Camera inputs, 5 Display outputs
- Audio, USB, Ethernet, CAN, LIN I/O interfaces
- Android™ 10 Auto, Android™ 11 Auto
- Kit comes with HDMI display and power adapter

Engineering Services:

We provide a full solution – our unparalleled engineering expertise and product development skills deliver innovative products that are cost-effective and can jumpstart your Go-to-Market timeline.

Our business model offers turnkey product development services, or we can augment your team in specific areas of development. The choice is yours.

Key development expertise in:

- Camera development and tuning
- Voice control
- Machine learning
- Mechanical & RF design
- Thermal & power optimization

IoT Product Development made easy

SA8155P Automotive Development Platform

Based on the Qualcomm SA8155P Automotive SoC

Introduction

The third-generation Automotive Development Platform (ADP) based on the Qualcomm SA8155P processor from Qualcomm Technologies, Inc. (QTI) provides OEMs and ecosystem partners with access to QTI's high-performance automotive infotainment, advanced driver assist platform for developing, testing, optimizing and showcasing next-generation in-vehicle infotainment solutions.

The SA8155P processor includes an eight-core Kryo CPU, a Qualcomm Adreno 640 GPU and high-performance Qualcomm Hexagon 696 DSP. The ADP features rich connectivity through Wi-Fi 802.11ac, Bluetooth LE 5.0, and supports up to 8 GMSL cameras and 5 mini display ports. The ADP provides an optimized application development environment for rapid deployment of high performance and power efficient connected automotive infotainment offerings.

> *A detailed image of the Lantronix SA8155P Automotive Development Platform, showcasing its complex circuitry, multiple connectors, and integrated Qualcomm SA8155P SoC.*

Key Features

- SA8155P Automotive SoC
- 8GB LPDDRX + 128GB UFS
- 802.11ac Wi-Fi and Bluetooth 5.0
- 8 Camera inputs, 5 Display outputs
- Audio, USB, Ethernet, CAN, LIN I/O interfaces
- Android 10 Auto, Android 11 Auto
- Kit comes with HDMI display and power adapter

Engineering Services

Lantronix provides a full solution leveraging unparalleled engineering expertise and product development skills to deliver innovative, cost-effective products that can jumpstart your Go-to-Market timeline.

Their business model offers turnkey product development services, or they can augment your team in specific areas of development.

Key development expertise includes:

- Camera development and tuning
- Voice control
- Machine learning
- Mechanical & RF design

- Thermal & power optimization

IoT Product Development made easy.

Hardware Specifications

Component	Specification
Processors	Qualcomm SA8155P Automotive SoC: 64-bit Kryo CPU with 4x high-perf Gold cores and 4x low-power Silver cores, Adreno 640 Graphics Processor, Hexagon 696 DSP, Spectra 380 Image Signal Processor, Secure Processor and Crypto Management Unit, NXP Vehicle Interface Processor
Memory	8GB LPDDR4X DRAM, 128GB UFS storage
Wireless	802.11ac dual-band Wi-Fi and Bluetooth 5.0
Location	Qualcomm SiRFStar V GNSS Receiver
Display Interfaces	5 DisplayPort video outputs

Component	Specification
Camera Interfaces	Up to 8 simultaneous GMSL camera inputs via dual GMSL to CSI De-serializer
Audio Interfaces	4x microphone inputs, 3x line outputs
USB Interfaces	1x USB3.1, 1x USB2.0, Type A connectors
I/O Interfaces	1x Ethernet, 2x PCIe, 4x CAN, 3x LIN, micro SD card socket, multiple debug interfaces
Power Input	Input voltage: 12V/5A from included power adapter
Size	Multi-board platform approximate dimensions: 20cm x 19cm x 7cm

Software Support

- OS Support: Android 10 Auto, Android 11 Auto

*Note that all hardware features may not be supported by SW - see latest SW release notes for details.

Development Kit Details

> *An image depicting the Lantronix SA8155P Automotive Development Kit components, including the development platform board, a mini HDMI touchscreen monitor, and various adapter cables.*

The Development Kit includes: Open-chassis development platform, mini HDMI/touchscreen monitor, DisplayPort to HDMI adapter, JTAG adapter cable, power supply, Quick Start Guide, and basic development kit support.

Purchasing Information

- SA8155P Dev Kit
- Part Number (PN): ADP-855-HAN-V2
